Living the Spirit of Auroville *in the World*

Join the Collective | Come & Experience

Like the desert cactus that suddenly blooms, sending its seeds far and wide...

Blueprint for Earth-Regenerative Communities, 2025

Nearly 60 years
of intentional community experimentation

3,300
Aurovilians from 60 nations

67 awards
technologies transferred to 38 countries

5 UNESCO
resolutions of support

Now is the moment to carry this wisdom to the world

The wisdom of Auroville now disperses across the world. This is a seed-dispersal moment for humanity. Former Aurovilians, with 20, 30, sometimes 50 years of lived experience, have settled across Europe, the Americas and beyond. They do not leave empty-handed.

WHAT THEY CARRY

Rare expertise

Earth architecture, agroforestry, integrative medicine, water management, renewable energy, organic farming, ecological sanitation. 13,930 people trained in 93 countries.

A practice of living together

Non-violent conflict resolution, collective decision-making, gift economy. Lived, not theoretical.

An inner orientation

Integral Yoga as a foundation. The inner work is inseparable from the outer work.

A global network

Auroville International, active since 1983 in over 23 countries. Recognised by India's Parliament since 1988.

OUR VISION

Not to replicate Auroville. To let its spirit blossom everywhere.

SHARE

58 years of collective wisdom: processes, learnings, ways of living together. This knowledge belongs to humanity.

EXPLORE

Keep the questions open. The Lab is a living laboratory, not a finished model.

LEARN

We come with humility. Other traditions and communities hold answers we have not yet discovered.

Five seeds we are planting

Satellite Communities	A constellation of intentional communities in Europe, Brazil and the US, carrying Auroville's DNA, not its name.
Meaningful Crafts	Bioclimatic construction, earth architecture, local materials. Training practitioners across continents.
Inspired Education	Learning without grades or fear: Awareness Through the Body, integral pedagogy, AI-assisted personalised paths.
Living Memory	Systematic, open-access documentation. What works and what doesn't, shared freely with the world.
Testimony & Witness	Speaking out as an act of civilisational responsibility. The Auroville crisis is a warning for all institutions.

THE LAB

A living laboratory for humanity

Auroville wants to be a universal town where men and women of all countries are able to live in peace and progressive harmony, above all creeds, all politics and all nationalities.

The Lab is the central project of the collective: a place to transmit, experiment and document what 58 years of intentional community have taught us about living well together. Recognised by 5 UNESCO resolutions and India's Parliament, Auroville's expertise now travels to the world.

Concrete experiences you can fund today

Not tourism, but embodied research.

Immersion Stays

Week-long to season-long residencies. Participants live, observe, question.

Thematic Workshops

Participatory governance, ecological construction, solidarity economy. Open to individuals and communities.

Research Residencies

For researchers and artists seeking deeper immersion in a specific field within the Auroville network.

Exchanges & Partnerships

Lasting ties with aligned communities, universities and citizen initiatives worldwide.

Living Documentation

Open-access knowledge: testimonies, tools, methodologies. A lab documents what it learns.

SERVICES · AUROPRO

Aurovilian expertise, shared with the world

Find experienced people. Share your work. Connect through services, workshops and learning experiences.

Browse AuroPro | Create your profile

Member directory

Search people by skills, languages or location. Filter by expertise such as earth architecture, organic farming or renewable energy.

Practitioner pages

Each member shows their work, experience and training, and lists the services and learning experiences they offer.

Workshops & events

Training sessions and gatherings led by members of the network.

60 years taught us how to live together

- How to care for one another and grow together
- How to organise collective life without suffocating it
- How to invent an economy that serves human beings
- How to inhabit the Earth without exhausting it
- How to let each person flourish while serving the whole
- How to move through conflict, grief and transition
- How to welcome spirituality without imposing it
- How to build governance that liberates rather than controls

The world has enough reports. It needs living examples.

- Refuge from urban overwhelm and isolation
- Real-world testing grounds for ecological innovation: 67 awards, technologies transferred to 38 countries
- Proof that diversity and unity can coexist: 60 nationalities, one community

Models balancing individual freedom with collective care

Living demonstrations of joyful, low-waste lifestyles

Evidence that alternative economies can be viable: 400+ enterprises, about 31M€ a year, 90% self-funded

Join us in planting these seeds

Make a Donation

Fund immersion residencies, workshops and the documentation of 60 years of collective wisdom.

Join the Collective

Become a founding member and help shape the direction and governance of the network.

Become a Partner

Institutional partnerships with communities, universities and values-aligned organisations.

Come & Experience

Attend an immersion stay or workshop and bring these learnings back into your own context.

“This is not an endpoint, but a new step.”

We wish to remain faithful to our ideal while opening ourselves to the world: to learn from others as much as we share, to contribute humbly to the evolution of human consciousness.
